Retake Policy:

Students are allowed to take each section of the Accuplacer three times in a six-month period. Students who do not achieve the required placement score on the initial test will be given the opportunity to retake 48 hours (2 days) from the initial test. If they do not achieve the desired placement score after their second attempt, it is recommended that the student test for the third time only after a minimum of one week (7 days) from their first retake.

This policy allows students time to review and study for their test. Free Accuplacer Practice Resources can be found at <https://accuplacer.collegeboard.org/students/prepare-for-accuplacer/practice>
